We are looking for enthusiastic, outgoing, committed individuals who are interested in helping to earn some extra cash and also making a contribution to the environment.

Emptycartridge Recycling Ltd runs an exclusive scheme to collect empty printer cartridges and unwanted mobile phones from companies and businesses, in fact any where there are printers. These items which would otherwise be disposed of in landfill sites can actually be used to raise much needed cash.

We require self employed collectors to carry out this work in their own local areas, the hours you work are entirely down to you. You will need your own vehicle, preferably an estate or hatchback and also storage space for the cartridges you collect whilst awaiting collection by Emptycartridge Recycling Ltd.

You will be paid an agreed amount for each cartridge of value or used mobile phone that you collect and will be supplied with a comprehensive list of all the cartridges and phones that have a value and the amount that you will be paid for each cartridge or phone.

This is a worthwhile and interesting opportunity that will give the right person a good income but will give you complete flexibility in the way you organise your collections and the hours that you work.

If you would like to speak to someone about these vacancies please call us on 01234 391889.
